

**ACCELA, INC.
DATA STORAGE POLICY**

The Licensee's subscription comes with a limit of 2.5TB data storage for all cloud environments. Data storage includes:

- Transaction data;
- Reference data;
- Configuration data;
- Documents and Report Files;
- Backup copies; and
- Other data stored by Accela on behalf of the customer.

Additional storage can be purchased from Accela in blocks of 500GB, with a price of one thousand dollars (\$1,000) per year. When Licensee approaches the 2.5TB limit, it will begin receiving monthly notifications highlighting data usage levels across its environment. Once the 2.5TB limit is reached, a charge of one thousand dollars (\$1,000) for an additional 500GB will be automatically added to the Licensee's subscription renewal.

Data Retention

If the Licensee's Software as a Service ("SaaS") subscription expires or is otherwise terminated, Contractor will initiate its data retention processes, including the deletion of licensee data from systems directly controlled by Contractor.

- If a Licensee's SaaS subscription expires or is otherwise terminated, Contractor will store its customer data, as defined in the master agreement between Licensee and Contractor, for ninety (90) days (the "Retention Period"). During the Retention Period, provide Licensee with a notice indicating its intention to delete its Customer Data.
- After the Retention Period, Contractor will, within a commercially reasonable amount of time, disable the account and delete the customer data, including any cached or backup copies.

History and log data will be available to customers in real-time for up to 2 years in production and 1 year in non-production, unless otherwise specified. After 2 years, the history data will be archived and retained for up to 7 years. This data will be provided to the customer upon request.
