

Esri Strategic Partnership for State and Local Government

Leverage your Esri investment to enhance your decision making

As an Esri Silver Partner, Accela innovates on and embeds Esri technology at the core of our Civic Platform. Building upon the best of two industry leaders, Accela GIS connects directly to your ArcGIS Enterprise and ArcGIS Online. With every Accela Civic Application you get a robust set of embedded Esri features including search, analysis, routing, and visualization.

Benefits

> Location Intelligence

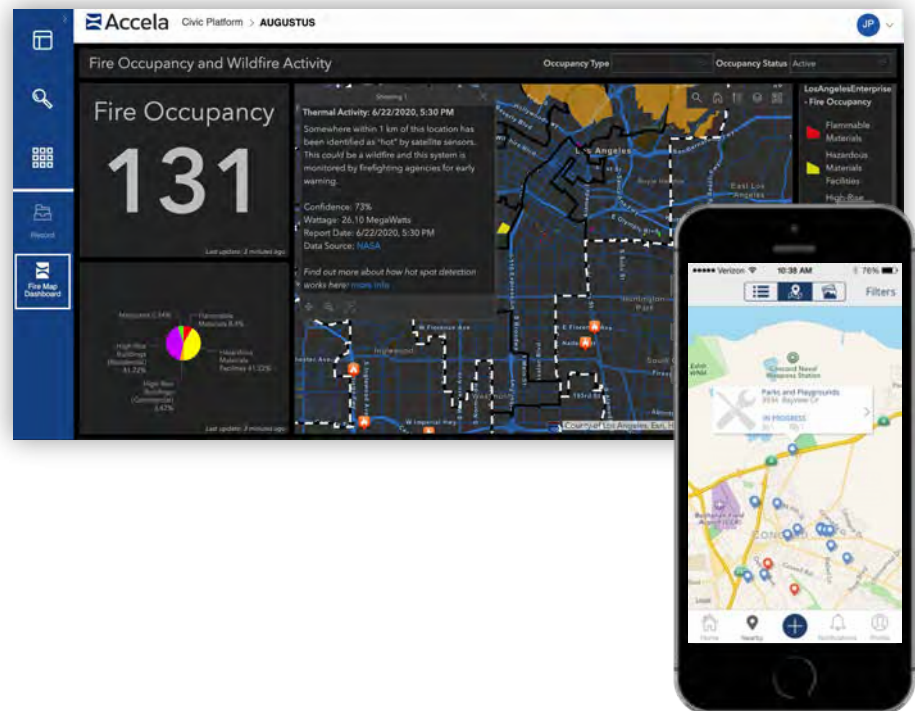

Across the Civic Platform, Accela users, business owners, and citizens can use spatial data for routing, site selection, conforming to regulations, and many more use cases.

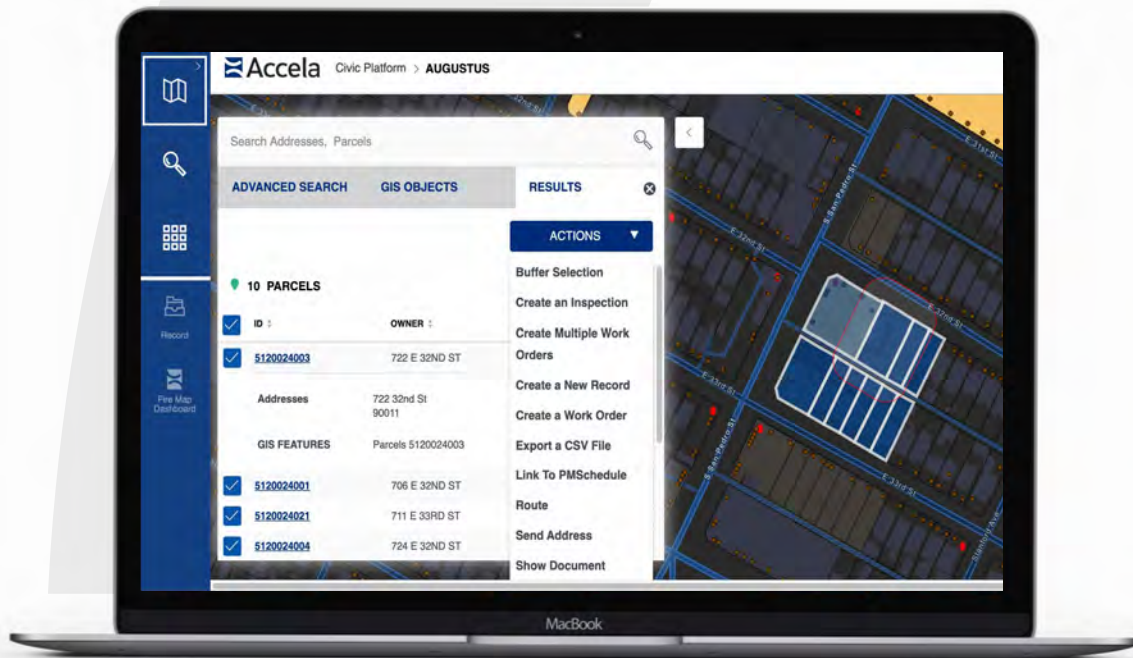

> Integrated Data

Using ArcGIS as the authoritative system of record, Accela records for permits, licenses, code violations, inspections, and service requests can be created in relation to the parcel and address.

> Analytics

The combination of Accela data with Esri product features optimizes workflow efficiency and drives performance-based analytics.

Features

Authentication
Support of Esri Named User licensing to access secure, federated services.

Visualization
View location-based data with JavaScript based maps, real-time layers, ArcGIS base maps, vector and image map services, and map widgets.

Search
Easily zoom or pan to map locations using address/parcel search or "use current location" geocoding and/or attribute search.

Analysis
Use geographic data for analysis and decision making via custom layer queries, measurement tools, buffer creation, and dashboarding.

Routing
Utilize ArcGIS routing and geocoding services to optimize field worker efficiency.
